Shishir Sharma Upadhyay

Software QA Engineer | Lalitpur, Nepal
github.com/Shishir19999 | linkedin.com/in/shishir-sharma-12b388198 | shishir19999.github.io/Website_Portfolio/

PROFILE

QA Engineer with expertise in manual, automation, API and backend testing, working with Selenium, TestNG, Postman, JMeter and Burp Suite. Knowledge of the MERN stack gives me a full-stack understanding, so I can follow a defect from the screen, through the API, down to the data.

PROFESSIONAL EXPERIENCE

QA Associate, Cloud Tech Service (Kathmandu, 06/2025 - Present)

- Manual testing of web and mobile applications: functional, regression, smoke, UI/UX and backend testing across multiple modules.
- Designed and executed detailed test cases, test scenarios and test data based on business and functional requirements.
- API testing with Postman and backend data validation with SQL queries to confirm data integrity and accurate system behaviour.
- Identified, documented, tracked and retested defects, collaborating closely with developers and business analysts in Agile/Scrum environments.
- Tested critical workflows such as authentication, Forgot Password with OTP verification, enrollment, billing, payment processing and policy management.
- Hands-on with automation and testing tools including Selenium, TestNG, Apache Maven, Burp Suite and Apache JMeter.

QA Intern, Cloud Tech Service (Dhangadhi, 02/2025 - 06/2025)

- Gained hands-on experience in manual, automation and API testing.
- Created and executed test scenarios, test cases and reports.
- Performed frontend, backend, and performance and security testing.
- Practiced defect reporting.

SKILLS

QA & Testing: Manual testing, Functional testing, Regression testing, Smoke testing, Exploratory testing, UI/UX testing, Test scenarios and test cases, Positive, negative and edge-case design, Defect reporting and retesting, Agile / Scrum

Automation: Selenium, TestNG, Apache Maven, Java, Cypress, Page Object Model, Dynamic test data, Mochawesome reports

API & Backend: Postman, REST API testing, Request chaining and scripts, SQL data validation, MySQL, JSON

Security & Performance: Burp Suite, Authentication and authorization checks, Apache JMeter, OWASP ZAP, k6

Web Development: JavaScript, TypeScript, React, Next.js, Node.js, Express.js, MongoDB, Prisma, Tailwind CSS, Bootstrap, HTML5 and CSS3

Tools: Figma, Git, GitHub, DBeaver, SQL Server Management Studio, MongoDB Compass

SELECTED PROJECTS

- **Artist Management System.** Artist, music and booking management with three role-based workspaces (artist manager, artist, user), analytics, playlists, audio previews and an audit trail. shishir19999.github.io/Artist-Management-System/
- **Hospital Management Application.** Patients, doctors and appointments with visit history, outpatient queue and triage, vitals, billing and role-based workspaces for the people running a clinic. shishir19999.github.io/Hospital-Management-Application/
- **Multi-Factor Authentication.** Account-security product: password sign-in with a second step (e-mailed one-time code, authenticator app or passkey), recovery options, step-up checks, sessions and an admin console. shishir19999.github.io/Multi-Factor-Authentication/
- **E-commerce ShopLane.** Online store with three roles: shoppers, sellers and admins. Product pages, compare, checkout, order tracking and seller and admin dashboards. shishir19999.github.io/E-commerce/

All projects: shishir19999.github.io/Website_Portfolio/#projects

EDUCATION

- **B.Tech, Computer Science and Engineering**, Rungta College of Engineering and Technology, Bhilai, India (09/2019 - 05/2023)
- **NEB**, Nepal Mega College, Kathmandu, Nepal (08/2017 - 05/2019)

COURSES

- **NextJs**, JobSniper Academy (09/2024 - 10/2024)
- **MERN**, IT Training Nepal (01/2024 - 03/2024)
- **Introduction to Web Development with HTML5, CSS3 and JavaScript**, IBM, via edX (07/2023 - 08/2023)
